Yellow 77® Wire Pulling Lubricant

- Wax-based formula provides superior lubricity
- Safe to use with most cable types except low-density polyethylene and semi-conducting jackets
- Won't break down or separate after repeated exposure to freezing temperatures
- Dries to a thin, non-conductive film that won't clog conduit
- Clings to cable throughout long pulls
- Easy to apply by hand or with pump
- Creamy texture applies easily and uniformly
- Homogeneous blend requires no mixing
- Won't dry out -- surface coat forms to control evaporation
- Environmentally safe -- non-toxic, non-flammable and non-corrosive

Available Sizes	Cat. No.
15 oz. Aerosol	31-356
1 Qt. Squeeze Bottle	31-358
